## ANNOUNCEMENT.

The manufacturers of "Mertz Moulding" take just pride in the position of leadership which has so long been accorded to them and their allied products. The characteristics and quality of our mouldings are apparently too well known to need any setting forth. Instead of asserting their merits we ask that they be inspected and thus have opportunity to speak for themselves. In the past their high quality has been accorded wide recognition and generous praise; these are better merited than ever before.

In many catalogues the effort is to expand the line by a repetition of the same thing, shown in various ways. In this, on the contrary, our object has been, while presenting a larger and more varied line of mouldings than any other concern in the world, to eliminate every moulding not reasonably needed, to condense rather than expand the line, and to present it in such form, under such grouping and with such system as will enable every user of the book easily to obtain every item of information desired.

Soliciting a continuance of the valued patronage with which we have been favored, we remain,

Respectfully,

GEO. MERTZ'S SONS,

PORT CHESTER, N. Y., U. S. A
